Date of Release: 24 October 2022
Reference No.: 2022-PR-015

PSA Oriental Mindoro SR conducting interview in one of the sample households of MPCSR

The Philippine Statistics Authority (PSA) Oriental Mindoro will conduct the **Monthly Palay and Corn Situation Report (MPCSR)** in **November**. These surveys are in accordance with Republic Act (RA) No. 10625 or the Philippine Statistical Act of 2013, which authorizes the PSA to prepare and conduct periodic censuses on various sectors of economy and Executive Order No. 352 mandating the conduct of the surveys every quarter.

The MPCSR primarily aims to update the estimates of the current quarter based on standing crop on area and production of palay and corn across the country. Such estimates are subject to changes depending on weather conditions, inputs and outputs, prices, and other factors which contribute largely to the deviations of the actual data from the early estimates. A close monitoring of the growing conditions of the crop is deemed necessary.

The hired SRs will undergo a one-day training, and right after, the field data collection will be conducted for 10 days, to be followed by manual editing and computerized data processing.

In the province of Oriental Mindoro, there are 140 sample households to be interviewed for MPCSR located in the municipalities of Bulalacao, Roxas, Bongabong, Gloria, Pinamalayan and Naujan.

The PSA is committed to deliver relevant and reliable statistics.
