

CONSTRUCTION STATISTICS FROM APPROVED BUILDING PERMITS IN ROMBLON: FEBRUARY 2025

(Preliminary Result)

Statistics generated from approved building permits are the bases of estimating level of construction of national income accounts and an indicator on the level of investment in the country. These construction statistics include the number, floor area, type of building and value of construction. As such, the data is valuable in analyzing present economic conditions and past developments, forecasting future trends and making policy decisions.
