## WHY REGISTER TO PHILSYS

As a digital foundational ID system, PhilSys will transform how services are delivered and accessed in the Philippines, and accelerate our transition to a digital economy, enabling presenceless, paperless and cashless transactions. Built on a Privacy-by-Design principle, PhilSys adopts the latest technology and innovations underscoring the importance of privacy of individuals and security of information under the system.

## DIFFERENCE OF EPHILID FROM PHILID

- The ePhilID has the same validity and functionality as the physical PhilID card.
- The ePhilID is designed to be used in all transactions. This allows registered persons to immediately enjoy the benefits of PhilSys, such as better access to more financial and social protection services.
- Just like the PhilID card, claiming the ePhilID is free of charge.
