TECHNICAL NOTES

Religious Affiliation in the Philippines (2020 Census of Population and Housing)

The population and housing censuses in the Philippines are conducted on a “*de jure*” basis, that is, a person is counted in the usual place of residence or the place where the person usually resides. The enumeration of the population and collection of pertinent data in the 2020 CPH referred to all living persons as of 01 May 2020.

For the 2020 CPH, data on the Religious Affiliation of all household members were collected by asking the respondents, “*What is ____’s religious affiliation?*”.

Definition of Terms

Household is a social unit consisting of person or a group of persons who sleep in the same housing unit and have a common arrangement in the preparation and consumption of food.

Household population refers to all persons who are members of the household.

Religious affiliation refers to a particular system of beliefs, attitudes, emotions, and behaviors constituting man’s relationship with the powers and principalities of the universe.

Religion is either defined as: (a) religious or spiritual belief of preference, regardless of whether this belief is represented by an organized group or (b) affiliation with an organized group having specific religious or spiritual tenets.
