

SPECIAL RELEASE

ORIENTAL MINDORO FISHERIES STATISTICS THIRD QUARTER 2024

Date of Release: 18 November 2024

Reference No.: 2024-SR-100

Volume of Fisheries Production

The total fisheries production in Oriental Mindoro was estimated at 1,050.87 metric tons during the third quarter of 2024. It declined by -67.1 percent from its previous year's output of 3,197.23 metric tons.

Subsectors of commercial, marine municipal, and inland municipal displayed increase in production while only aquaculture decreased in production

Table 1. Volume of Fisheries Production by Subsector, Oriental Mindoro: Third Quarter 2023 and 2024

Subsector	2023 (in metric tons)	2024 (in metric tons)
Commercial Fisheries	1,221.73	261.81
Marine Municipal Fisheries	1,386.76	440.35
Inland Municipal Fisheries	393.16	75.23
Aquaculture	195.59	273.49

Volume of Production by Subsector

For the third quarter of 2024, the commercial fisheries output displayed a decrease of -78.6 percent at 261.81 metric tons compared to the same quarter of last year’s volume of production of 1,221.73 metric tons. This subsector shared 24.9 percent in the total fisheries production of the province.

Marine municipal fisheries' volume of production was recorded at 440.35 metric tons during the quarter. Comparing to 2023 production of 1,386.76 metric tons, this year's output displayed a -68.3 percent decrease in production. Of the province's total fisheries production, the subsector constituted the biggest share of 41.9 percent.

Value of Fisheries Production

Oriental Mindoro's total value of fisheries production reached PhP 184.92 million in the third quarter of 2024, which is a decrease of -60.2 percent compared to the PhP 465.11 million value of production in the third quarter of the previous year.

All three subsectors of commercial, marine municipal, and inland municipal fisheries, posted a decrease in the value of production during the reference period compared with the value in the same quarter of 2023. Commercial fisheries reported a total value of Php 36.13 million which is a -78.0 percent decrease from last year's value of Php 164.05 million. Likewise, marine municipal fisheries value of production went down by -66.8 percent (Php 69.63 million from Php 209.93 million), and inland municipal by -82.5 percent (Php 8.18 million from Php 46.86 million).

On the other hand, aquaculture increased in value of production for the third quarter of this year. Aquaculture's value of production went up by 60.3 percent (Php 70.97 million from Php 44.28 million).

**Table 2. Value of Fisheries Production by Subsector,
Oriental Mindoro: Third Quarter 2023 and 2024**

Subsector	2023 (in thousand pesos)	2024 (in thousand pesos)
Commercial Fisheries	164,049.82	36,134.62
Marine Municipal Fisheries	209,927.58	69,634.80
Inland Municipal Fisheries	46,858.56	8,180.72
Aquaculture	44,278.64	70,974.56

Technical Notes

The Fisheries Situation Report presents the data on volume and value of production of fisheries derived from the quarterly surveys conducted by the Philippine Statistics Authority. The surveys are:

Quarterly Commercial Fisheries Survey (QCFS),
Quarterly Municipal Fisheries Survey (QMFS),
Quarterly Inland Fisheries Survey (QIFS), and
Quarterly Aquaculture Survey (QAqS).

These surveys are conducted quarterly with reference period: January to March for the First Quarter, April to June for the Third Quarter, July to September for the Third Quarter, and October to December for the Fourth Quarter. Data are collected from the sample fish landing centers for QCFS and QMFS, from sample households for QIFS, and from sample aquafarms for QAqS.

DEFINITION OF TERMS

Volume of Production is the total weight in metric tons of the species from commercial, municipal, aquaculture, and inland fisheries.

Value of Production is the total price in thousand pesos of the species from commercial, municipal, aquaculture, and inland fisheries.

Commercial Fishing covers fishing operations in marine waters beyond 15 kilometers from the shoreline by fishing boats with more than three (3) gross tons.

Marine Municipal Fishing covers fishing operations in marine waters within 15 kilometers from the shoreline by fishing boats with three (3) gross tons or less.

Inland Municipal Fishing covers fishing operations performed in inland bodies of water using fishing vessels of three (3) gross tons or less, or fishing not requiring the use of fishing vessels.

Aquaculture is fishery operation involving all forms of raising and culturing of fish and other fishery species in marine, brackish and freshwater environment. Examples are fishponds, fish pens, fish cages, mussel, oyster, seaweed farms and hatcheries.

Fish Landing Center is the place where the fish catch and other aquatic products are loaded and traded.

Aquafarm is the farming facility used in the culture or propagation of aquatic species including fish, mollusk, crustaceans and aquatic plants for purposes of rearing and culturing to enhance production.
