The statistics presented in this report were based on the information provided by the respondent or any responsible household member who may provide accurate answers to the questions and give correct information about the household. Moreover, the number of households in this report excludes households enumerated as homeless.

In the 2020 CPH, data on the land ownership were collected by asking the respondents, *“Does any member of this household own the following?”*

1. *Other residential land/s;*
2. *Agricultural land/s;*
3. *Agricultural land/s acquired through Comprehensive Agrarian Reform Program, as an agrarian reform beneficiary;*
4. *Other land/s.*

## Technical Notes

*The population and housing censuses in the Philippines are conducted on a “de jure” basis, wherein a person is counted in the usual place of residence or the place where the person usually resides. The enumeration of the population and collection of pertinent data in the 2020 CPH referred to all living persons as of 01 May 2020.*

*For land ownership in the 2020 CPH, the respondent was asked, “Does any member of this household own the following...?” This determines if the household has any member/s who own other lands aside from the one that the household is currently occupying. The data were collected using the CPH Form 2 (Common Household Questionnaire).*
