

# SPECIAL RELEASE

## ORIENTAL MINDORO FISHERIES STATISTICS First Quarter 2025

**Date of Release:** 30 June 2025  
**Reference No.** 2025-SR-107

### ***Volume of Fisheries Production***

The total fisheries production in Oriental Mindoro was estimated at 1,038.63 metric tons during the first quarter of 2025. It declined by 33.8 percent from its previous year's output of 1,569.80 metric tons.

**Figure 1. Volume of Fisheries Production and Annual Growth Rate,  
Oriental Mindoro: First Quarter 2023, 2024, and 2025**

Source: Philippine Statistics Authority

Subsectors of commercial, marine municipal, and inland municipal displayed decrease in production, while only aquaculture increased in production.

**Table 1. Volume of Fisheries Production by Subsector,  
Oriental Mindoro: First Quarter 2024 and 2025**

<b>Subsector</b>	<b>2024 (in metric tons)</b>	<b>2025 (in metric tons)</b>
Commercial Fisheries	401.10	353.64
Marine Municipal Fisheries	719.90	329.54
Inland Municipal Fisheries	296.60	202.05
Aquaculture	152.20	153.39

### **Volume of Production by Subsector**

For the first quarter of 2025, the commercial fisheries output displayed a decrease of 11.8 percent at 353.64 metric tons compared to the same quarter of last year's volume of production of 401.10 metric tons. Of the province's total fisheries production, the subsector constituted the biggest share of 34.1 percent.

Marine municipal fisheries' volume of production was recorded at 329.54 metric tons during the quarter. Comparing to the 2024 production of 719.90 metric tons, this year's output displayed a 54.2 percent decrease in production. Marine municipal subsector had a share of 31.7 percent of the total fisheries production of the province.

**Figure 3. Volume of Marine Municipal Fisheries Production and Annual Growth Rate, Oriental Mindoro: First Quarter 2023, 2024, and 2025**

### ***Value of Fisheries Production***

Oriental Mindoro's total value of fisheries production reached PhP 185.08 million in the first quarter of 2025, which is a decrease of 18.9 percent compared to the PhP 228.32 million value of production in the first quarter of the previous year.

All three subsectors of marine municipal, inland municipal fisheries, and aquaculture posted a decrease in the value of production during the reference period compared with the value in the same quarter of 2024. Marine municipal fisheries reported a total value of PhP 55.98 million, which is a 43.6 percent decrease from last year's value of PhP 99.21 million. Likewise, inland municipal fisheries value of production went down by 25.5 percent (PhP 19.96 million from PhP 26.79 million), and aquaculture decreased by 11.8 percent (PhP 37.66 million from PhP 42.69 million).

On the other hand, commercial fisheries increased in value of production for the first quarter of this year. Commercial's value of production went up by 19.9 percent (PhP 71.48 million from PhP 59.64 million).

**Table 2. Value of Fisheries Production by Subsector,  
Oriental Mindoro: First Quarter 2024 and 2025**

<b>Subsector</b>	<b>2024 (in thousand pesos)</b>	<b>2025 (in thousand pesos)</b>
Commercial Fisheries	59,637.41	71,477.80
Marine Municipal Fisheries	99,206.53	55,982.88
Inland Municipal Fisheries	26,792.86	19,959.13
Aquaculture	42,687.51	37,655.95

## Technical Notes

The Fisheries Situation Report presents the data on volume and value of production of fisheries derived from the quarterly surveys conducted by the Philippine Statistics Authority. The surveys are:

Quarterly Commercial Fisheries Survey (QCFS),  
Quarterly Municipal Fisheries Survey (QMFS),  
Quarterly Inland Fisheries Survey (QIFS), and  
Quarterly Aquaculture Survey (QAqS).

These surveys are conducted quarterly with reference period: January to March for the First Quarter, April to June for the Fourth Quarter, July to September for the Fourth Quarter, and October to December for the Fourth Quarter. Data are collected from the sample fish landing centers for QCFS and QMFS, from sample households for QIFS, and from sample aquafarms for QAqS.

### DEFINITION OF TERMS

**Volume of Production** is the total weight in metric tons of the species from commercial, municipal, aquaculture, and inland fisheries.

**Value of Production** is the total price in thousand pesos of the species from commercial, municipal, aquaculture, and inland fisheries.

**Commercial Fishing** covers fishing operations in marine waters beyond 15 kilometers from the shoreline by fishing boats with more than three (3) gross tons.

**Marine Municipal Fishing** covers fishing operations in marine waters within 15 kilometers from the shoreline by fishing boats with three (3) gross tons or less.

**Inland Municipal Fishing** covers fishing operations performed in inland bodies of water using fishing vessels of three (3) gross tons or less, or fishing not requiring the use of fishing vessels.

**Aquaculture** is fishery operation involving all forms of raising and culturing of fish and other fishery species in marine, brackish and freshwater environment. Examples are fishponds, fish pens, fish cages, mussel, oyster, seaweed farms and hatcheries.

**Fish Landing Center** is the place where the fish catch and other aquatic products are loaded and traded.

**Aquafarm** is the farming facility used in the culture or propagation of aquatic species including fish, mollusk, crustaceans and aquatic plants for purposes of rearing and culturing to enhance production.
