**Date Release:** 13 May 2025  
**Reference No.:** 2025 - 069

13 May 2025 - ROMBLON, ROMBLON. The Philippine Statistics Authority Romblon Provincial Statistical Office conducts the 2025 monthly Survey of Retail Prices of Selected Commodities for the Generation of Consumer Price Index (CPI). The survey is being conducted in two phases: the first phase on the 1st to 5th day of the month and the second phase on the 15th to 17th day. Additionally, the prices for petroleum products will be collected every Tuesday.

PSA Romblon conducts monthly survey of retail prices of selected commodities included in the provincial market basket for CPI generation.

The conduct of this survey is in accordance with Republic Act (RA) No.10625 otherwise known as the Philippine Statistical Act of 2013, which authorizes the PSA to prepare and conduct periodic censuses on various sectors of the economy and Executive Order No. 352 mandating the conduct of the survey every month.

The Retail Price Survey (RPS) collects retail prices and other relevant marketing information at various frequencies at pre-selected major trading centers throughout the province. The term “retail price” refers to the price at which a commodity is sold in

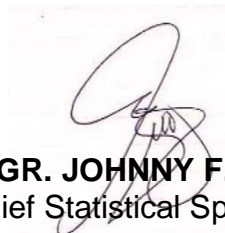

small quantities for consumption. It will also generate the CPI that measures the changes in the average retail prices of a fixed basket of goods and services commonly purchased by households relative to a base year.

Six (6) hired Statistical Researchers (SR) are being utilized to visit the sample outlets/establishments in the municipalities of Odiongan, Looc, San Agustin, Romblon and San Fernando.

The PSA is committed to deliver relevant and reliable statistics. Hence, the agency encourages the public, especially the sample establishments, to participate in the various censuses and surveys conducted by the PSA. The agency also assures that all collected personal information is processed in accordance with the law and other issuances.
