RAP provides planners, policy makers and users a description and assessment of the overall performance of the economy in the region in a given period. It includes the compilation of statistical indicators on different sectors of the economy from various sources such as census and survey results, administrative records of government and private establishments.

Regional Statistics Committee Resolution No. 2017-03 proposed to request support from the LGUs of MIMAROPA in collecting data for the estimation of the GRDP. Data will be used as validation parameters of GRDP estimates for year 2021 to 2023 in MIMAROPA.
