The Philippine Statistics Authority (PSA) Marinduque Provincial Statistics Office (PSO) has made significant progress towards achieving its registration goals for the Philippine Identification System (PhilSys), having reached 90.62 percent of its target population.

The commitment and diligence exhibited by the PSA Marinduque Team in its pursuit of achieving full registration is commendable, aiming to guarantee that each resident can fully leverage the advantages of the PhilSys.

Facing challenges posed by saturated municipalities, the PhilSys team showed remarkable commitment through partnerships with private and government agencies, developed and implemented comprehensive strategies to facilitate the seamless execution of the PhilSys registration.

These registration strategies have notably contributed to reach the 90.62 percent of target population of PhilSys Registration, bringing the total to 195,158 individuals as of 31 March 2024.

PSA Marinduque will continue its efforts to reach the remaining eligible individuals and encourage unregistered individuals to participate in the ongoing saturation drives, which will enable them to access the services provided by PhilSys.
