First Quarter 2025 Progress of the National ID Implementation in Marinduque

Date of Release: 28 April 2025

Reference No.: 2025SR-04-023

The Philippine Statistics Authority (PSA) Marinduque continues its focused implementation of the National ID System into the first quarter of 2025, as the province steadily progresses toward its goal of providing a secure and universal identification system for all residents.

As of March 2025, the province has maintained its momentum in both registration and National ID in Paper Format issuance, while taking strategic steps to improve the efficiency of operations and service delivery.

Marinduque Achieves 88.54 Percent National ID Registration

To date, a total of 211,796 individuals have been successfully registered in Marinduque, accounting for 88.54 percent of the province’s target population of 239,207. This figure includes registrants from all age groups, including children aged one to four, underscoring the agency’s commitment to inclusive and comprehensive registration.

Nearly 80 percent of Marinduque Residents Now Hold National IDs in Paper Format

Since the launch of the National ID in paper format, also known as the ePhilID, in October 2022, PSA PSO Marinduque has issued a total of 165,055 IDs by the first quarter of 2025. This figure represents 79.93% of the province's registered population, a significant indicator of Marinduque's strong adoption of the National ID program.

The issuance of the National ID in paper format allows residents to benefit from a verifiable, government-recognized identity even before receiving the physical card. Notably, Santa Cruz emerged as the top-performing municipality with 42,014 printed National ID in paper format, while Buenavista had the lowest count at 17,350. Additionally, 97 IDs were issued to individuals residing outside the province.

The issuance of National ID in paper format in Marinduque reflects significant changes over the years. In 2022, PSA PSO Marinduque issued 88,072 National ID in paper format, corresponding to 75.48 percent of the 116,681 total registrations that year. In 2023, despite a decrease in number of registered individuals to 20,434, the number of issued National ID paper format increased significantly to 62,431, resulting in an issuance rate of 305.53 percent. This likely means that IDs issued were from prior registrations, as the agency focused on clearing accumulated backlogs. In 2024, issuance normalized, with 12,424 National ID in paper format released, covering 76.79 percent of the year’s registrations. (See Figure 2.)

For the first quarter of 2025, a total of 2,128 National ID in paper format were issued, equivalent to 56.47 percent coverage, indicating a continued alignment of issuance with current registration volumes.
