(Philippines as of 30 September 2024)

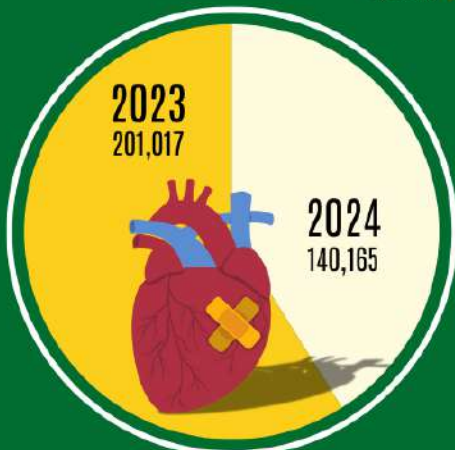

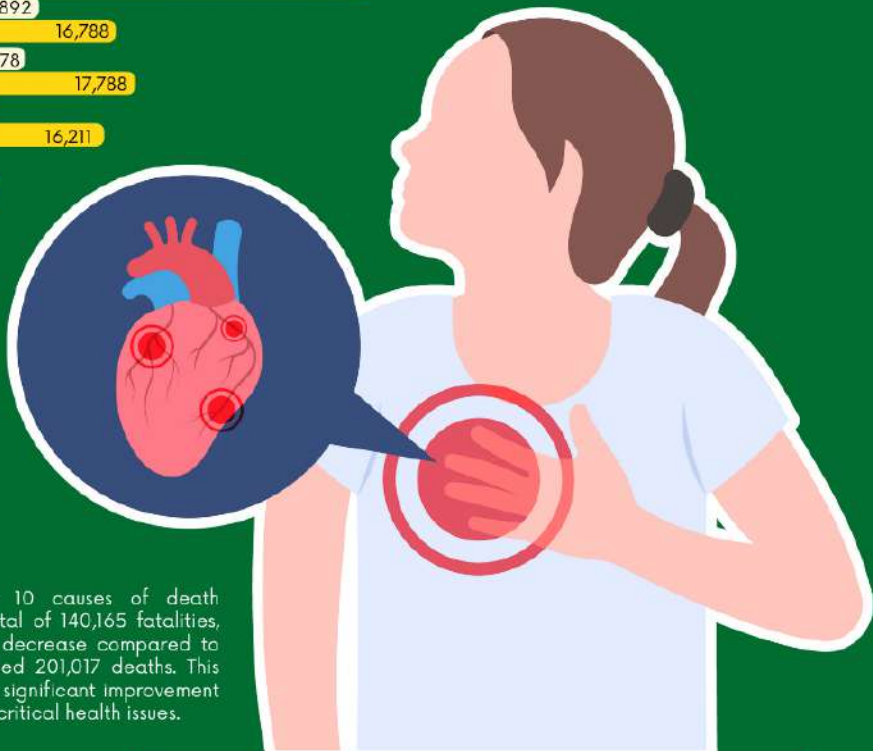

Total
140,165

JANUARY - MAY
 2023 & 2024

TOP 10 CAUSES OF DEATH

Note:
 A report for the period January to April 2024 confirms that the top 10 causes of death remain unchanged from those reported in 2023.

Note:
 In 2024, the top 10 causes of death accounted for a total of 140,165 fatalities, showing a notable decrease compared to 2023, which recorded 201,017 deaths. This decline highlights a significant improvement in addressing these critical health issues.
